we're happy
because we are growing

— And that means we need a super dooper —

Web Developer

happy creative

JOB SPECIFICATION: Web Developer
HOURS: 9am-5pm Monday to Friday
PAY: Depending on experience

about happy
Spreading happiness is at the core of what we do

Our company culture is really important to us. It is our culture that helps us deliver amazing creativity and wonderful service to global brands. That's how we build long-term enduring brands for our clients; our talented team are passionate about marketing, about creativity, about digital and about design.

As an award-winning, energetic, passionate and positive agency, we are looking for talented, happy people who can make a difference.

Importantly; we care about people.
We want you to be…well….happy! You'll enjoy:

- 24 days' paid holiday per year
- Lots of social activities
- A birthday gift plus cake (accompanied by singing from The Happies)
- A company pension
- A childcare voucher scheme

overview of role

We're seeking a talented, enthusiastic and experienced web developer to join our growing team.

Working closely with the design department, your websites should exude quality, demonstrate forward-thinking and present easy to use but powerful functionality.

Mainly working within custom WordPress, you must be highly skilled and have a number of years experience working with HTML5, CSS3 and JavaScript frameworks.

Additional experience developing Expression Engine or Magento websites will be highly beneficial.

experience
- Strong custom development skills are essential ideally with some commercial development experience working with PHP and MySQL databases
- Experience of working within an MVC framework such as Codeigniter would be beneficial
- A strong understanding of HTML, CSS, Javascript, jQuery and cross browser development is essential as is a keen knowledge of industry design applications such as Photoshop and Fireworks

skills and knowledge required
- Comprehensive knowledge of HTML5, CSS3 and Javascript
- Knowledge and understanding of CSS frameworks such as Bootstrap
- Ability to write custom JavaScript and a good understanding of JavaScript frameworks, primarily jQuery but others beneficial
- A strong knowledge of MySQL
- PHP development desirable
- A working knowledge of Server Management
- Experience in Expression Engine and/or Magento highly desirable
- Technical knowledge of SEO

The best candidates will be able to demonstrate their ability to code with this in mind and be able to provide examples of their work through either an online portfolio or live URLs.

we'd love to hear from you

If this sounds like you, then we'd love to hear from you. Please send your cv and your current salary along with a covering note explaining how you feel you can add value to Happy Creative. Please also let us know what makes you happy.
